One Billion Voices for Education

The San Estanislao de Kostka School joins the Global Action Week for Education 2021

FOR the past eight years, San Estanislao de Kostka school has participated in an event which it wouldn't dream of missing, GAWE, the Global Action Week for Education or SAME, "Semana de Acción Mundial por la Educación" in Spanish. This year, under the slogan "A billion voices", 124 countries around the world are taking action to get the attention of governments and political representatives to increase their investments to guarantee the right to a decent education for everyone framed within the 2030 Agenda.

There are still 263 million children and youngsters deprived of education, most of them in Sub-Saharan countries. This problem has worsened during the pandemic situation of COVID-19. All of them need our voices to be heard.

As a Jesuit Educational Centre, we firmly think that schools are places where children can grow and reflect on the world around them. Moreover, they should also work towards the freedom and dignity of all people which includes the right to an education. From the 26th to the 30th of April, the students of San Estanislao de Kostka School worked on this problem focusing the content of their assembly classes on emotions in order to help students to empathize, know and transform their world into a better place for millions of

children.

Our school, led by the mission of educating persons of competence, conscience, compassion, and engagement, has carried out several events together with other associations in Salamanca: AFIM, AVIVA, ASPAR LA BESANA, ASPAS, INSOLAMIS, ARIADNA, ASPRODES, and LOS TILOS. Unfortunately, this year, COVID-19 has prevented them from joining us and celebrating the gathering that we used to on our school ground. However, this has not hindered our progress in raising awareness of this issue. Every centre or school has interviewed the main educational representatives of the city and recorded a manifesto reading which has

been broadcasted on social networks. In our school, "La Red Solidaria de Jóvenes" has played an essential role, contributing to the organization, creation, and awarding of different activities.

Our students' voices have been heard and their artistic talent has been depicted. All of them have made murals that represent their voices in a very creative exercise that will be displayed in an exhibition that can be seen in the "Hospedería Fonseca" until 7th May.

The Global Campaign for Education (GCE) has created the hashtags #ABillionVoices, #MilMillonesdeVoces to support and achieve its aim: an inclusive, equitable, and quality education for everyone in the world.
